Yes, well we don't have access to the master spreadsheet anymore – it's locked down because Matthew Bell is supposed to be finalizing it. I haven't heard back from him yet. (Don't know if he's working today – technically people working the National Capital Region (NCR) are off work today because its inauguration day. Of course, that's silly because most or all are working from home most of the time anyway.)

If you can provide the names of people you included the first time around, I can email it to Matthew Bell and ask him to let us know whether or not those folks are on the list.

Thank you, Walter.

I just spoke with Becki and she was very sorry that this happened, but reconfirmed that ORD is not fixing this.

She was asked to have us work with our DRAs/MSD Directors who are working on updating names in each Region to ensure the LSASD Tier 2 names make it on the master spreadsheet.

I've also called and left a voicemail for Matthew Bell in OMS who is the person assembling the master spreadsheet.

Hi Walter,

My understanding is that ORD is not going to correct this. Becki requested that we bring this issue to our DRAs and MSD Directors, and request your support in ensuring our staff are on the list.

I'll call Becki and double check my understanding tomorrow – will circle back with you.

Best,  
Anahita

**Subject:** RE: Early Vaccines - call with ORD

That would be a serious problem. Did Becki say ORD would fix the problem – i.e., provide the information to Matthew Bell to get the LSASD staff back on the list??

And I just wanted to clarify – Becki heard that **someone in ORD** dropped the regional labs from the ORD spreadsheet.

Really appreciate it, Don.  
This news was quite shocking!

Hi Anahita – we did not make changes to the spreadsheet to take LSASD staff off of the list. In fact I added their employee ID numbers onto the spreadsheet. I tried to go into to confirm that they were still on the list but the spreadsheet is now password protected and I don't have the password. I'll drop Matt Bell a note to see if I can gain access.

**Subject:** Early Vaccines - call with ORD  
**Importance:** High

Hi Walter, Don,

We are on a call with ORD now, with our NPM Becki Clark, who wanted us to check-in with our MSD Directors & DRAs to see if our LSASD regional field & lab staff are still on the early vaccine list. Becki heard over the weekend that all the Regional LSASD staff on the list for early vaccines were dropped off the ORD master list because they didn't have employee ID numbers for our staff...

Would you be able to confirm if our R2 LSASD staff is still on the early vaccine list?

Thank you,

Anahita Williamson, Ph.D.
